Section E: Principle Wise Performance

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

Yes, the policy relating to ethics, bribery and corruption covers only GGL and currently it is not extended to the Group/Joint Ventures/ Suppliers/Contractors.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company had received 97 letters of various types of request, inquiries and complaints from its equity shareholders during FY 2019-20, which had been resolved and settled to the satisfaction of the shareholders.

The Company strives to resolve any complaint received from its stakeholders.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 products or services whose design has incorporated social or environmental concerns, risks, and/or opportunities.

GGL is engaged in “Natural Gas” distribution to Domestic, Commercial, Industrial and Transport customers. Natural Gas being inherently a cleaner fuel is an environmental friendly fuel.

2. For each product, provide the following details in respect of resources (energy, water, raw material etc.) per unit of product.

- (i) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?**
- (ii) Reduction during usage by consumers (energy, water) has been achieved since the previous year?**

GGL always encourages and aggressively promotes to the community to use PNG and CNG over conventional energy resources which generates high GHG emission.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Provide details thereof, in about 50 words or so.

Natural gas reduces around 50% greenhouse gas (GHG) emissions compared to coal used in various industrial applications including ceramic and tiles industry. It can also be transported through pipelines to various places replacing the carbon footprint generated by transporting liquid fuel/coal through roads. In continuation to GGL’s drive to promote sustainable sourcing, during FY 19-20, GGL engaged with Maxim Environmental Engineering Private Limited (MEEPL) Jamnagar which is producing Bio-Methane from Wet waste.

GGL has also started replacing its diesel driven transport vehicles with CNG (Compressed Natural Gas) as a fuel.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

GGL considers “Local” as PAN India and believes in providing equal opportunity to all suppliers/vendors across India. To avoid any discrimination in awarding the project, we hire

all our contractors through our online bidding process. This ensures that selection is totally on the basis of merit.

5. Does the company have mechanism to recycle products and waste? If yes, what is the percentage of recycling waste and products?

GGL is solely involved in services of distribution of Natural Gas through network of pipelines designated as PNG and also in compressed form for use in transport sector designated as CNG. These services generally do not have significant waste generation.

However GGL has established, implemented and maintained a system of proper Waste Management:

- to avoid, reduce or control (separately or in combination) the creation or discharge of any type of waste in order to reduce adverse environmental impacts
- to reuse, refurbishing, recycle and dispose the waste
- to handle the waste from generation to disposal stage effectively in order to comply with legal & statutory requirements
- to protect the environment

Waste generated in form of used batteries, electronic waste, used oil from equipment such as compressor at GGL are sent to pollution control board approved vendors for either recycling or environment friendly disposal.

Principle 3: Businesses should promote the wellbeing of all employees

1. Please indicate the total number of employees-

Total number of employees as on 31st March, 2020 is 1089.

2. Please indicate the total number of employees hired on temporary/ contractual/casual basis –

Total number of Fix-term contract employees as on 31st March, 2020 is 21.

3. Please indicate the number of permanent women employees –

Total number of permanent women employees as on 31st March, 2020 is 59.

4. Please indicate the number of permanent employees with disability –

Total number of permanent employees with disability as on 31st March, 2020 is 6.

5. Do you have an employee association that is recognized by management?

GGL believes in providing the freedom of association to the employees and the same is done through two of our management recognized unions, GGL Staff Union and GGL Employees Union.

6. What percentage of your permanent employees are a member of this recognized employee association?

About 15% of the employees are members of the above mentioned association.

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

GGL has a policy on prevention of sexual harassment under which a Committee is formed that is dedicated to cases against sexual harassment in the Company. There has been one complaint received on the same during FY 2019-20 and the same has been disposed with immediate appropriate action. Due to stringent mechanisms in place for prevention and addressing issues related to sexual harassment, further "NO" such complaint is pending as on the end of financial year.

Similarly, all the work orders issued to contractors have clear instructions regarding compliance to all labour laws, including the prohibition of child labour. As a result of this, there have been "NO" complaints related to forced labour and child labour.

8. What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year?

GGL has incorporated various safety practices in its premises and always tries to convey these safety instructions via sign boards.

GGL has programmes on various safety training for its new joining employees. The Company also tries to upgrade skills of its existing employees through organizing various skill up-gradation programmes.

Principle 4: Businesses should respect the interests of, and be responsive to the needs of all stakeholders, especially those who are disadvantage vulnerable, and marginalized.

1. Has the company mapped its internal and external stakeholders? Yes/No

GGL has identified and mapped all its stakeholders and same are mentioned below;

- a) Employees
- b) Shareholders
- c) Customers
- d) Vendors/Suppliers/ Contractors
- e) Government/ Statutory authorities
- f) Banks (Lenders)
- g) Community

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

GGL has identified its disadvantaged, vulnerable and marginalized stakeholders and same are mentioned below;

- a) Women
- b) Youth
- c) Rural Communities

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable, and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

GGL has taken special initiatives for its identified disadvantaged, vulnerable and marginalized stakeholders, few such initiatives are mentioned below;

a) For Women in rural areas

GGL has supported the government initiative for providing natural gas supply in rural areas as burning of wood and coal effects the health of women and causes health issues such as lung cancer, asthma and others. Under this initiative, GGL has gone the extra mile for implementation of PNG in rural areas of Gujarat state and has covered more than 1,000 villages successfully.

b) For Youth in rural areas

GGL has identified various locations in the state of Gujarat for implementation of CNG stations for vehicles and successfully installed them. This activity has helped the local youth on employment issues faced by them previously.

Principle 5: Businesses should respect and promote human rights

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

GGL has Human Rights Policy in place which covers all its employees and business associates.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

The Company has not received any complaints from stakeholders with respect to violation of human rights.

Principle 6: Business should respect, protect, and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

The policy related to Principle 6 covers the Company and its contractors and vendors.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

GGL, as a responsible organization, recognizes and understands the various global challenges with respect to environmental degradation and climate change. Building awareness among the employees and community about these challenges is an effective way of addressing these challenges. GGL put efforts to do so through the following initiatives:

Celebration of Environmental Day

Every year GGL celebrates this day by conducting various activities like sapling plantation drives as well as Awareness session with frontline field staff and their supervisors on "Appropriate methodology for waste reduction, collection, handling and disposal". Various competitions (poster making/slogan writing etc.) are arranged for employees and their family members as part of awareness program on environment protection.

Reduction of Natural Gas emission:

GGL endeavors to reduce Natural gas emission from its operations. Natural gas gets emitted into the atmosphere either as part of planned release or unplanned release. While major part of these emissions are due to un-planned release which is caused by network damage by third party, some emissions are due to network self-failure. Planned release emissions also contribute to a small part of these emissions and are notably during network or equipment commissioning or preventive maintenance activities. GGL in its bid to reduce these emissions focuses on various educational programs, utility coordination & campaigns such as dial before dig (detailed below) for third parties working in the same area as GGL. GGL has also put in penalization mechanism for each network damage against third parties causing the same as a deterrent to prevent damages. Apart from this GGL also takes various actions/improvements to reduce emissions, few are listed below:

- Fast emergency response to reported damage cases for prompt isolation of the damaged section
- Isolation valves at distances as defined by regulator to reduce emissions post isolation
- Effective Preventive maintenance plan and compliance to same to reduce breakdown instances
- Efficient commissioning procedure to reduce natural gas emissions etc.

GGL monitors Natural Gas emission per 10,000 scm of gas purchase cumulative month on month in comparison to the last financial year.

Dial Before Dig Campaign

In this campaign, GGL educates and influences stakeholders such as local municipal authorities, other utilities, their contractors and their field staff including heavy machine like JCB, HDD operators etc.) who undertake digging & horizontal directional drilling (HDD) activities as part of their laying or construction activity. The campaign is done to bring their focus on safety and environmental risks of natural gas release in the atmosphere which can occur as a result of damage to GGL's natural gas pipeline network during their digging & HDD operations. The third parties are urged to dial in to GGL to confirm the location prior to starting any digging / excavation / HDD activities so that damage to Natural gas pipeline network can be prevented.

Promoting Clean fuel

GGL is influencing the automobile users in its operational areas through various campaigns to use Compressed Natural Gas as a clean automotive fuel. It helps for the reduction of environmental impact caused by vehicular emission due to use of other polluting fuels. GGL has a dedicated business focus to increase CNG transportation and dispensing infrastructure and facilities.

GGL promotes Natural Gas as a clean fuel for industrial & commercial purposes. GGL as a responsible utility dealing in clean fuel ensured supply of Natural Gas as an environment friendly fuel and related pipeline network setup while managing all challenges effectively in shortest duration when there was a sudden increase in demand of natural gas post a NGT order dated March 2019, to shutdown of coal gassifiers for environmental reasons in Morbi which is the hub of ceramic industry with over 950+ units of vitrified and wall tile units.

Other Initiatives and compliances

- GGL ensures that all its vehicles have timely PUC re-certifications. Awareness regarding regular servicing and proper maintenance of vehicle is also given due importance through awareness activities.
- GGL ensures that all relevant equipment with are maintained as per defined frequency and monitored for emission levels to be within prescribed limits of Pollution Control Board authorization.

3. Does the company identify and assess potential environmental risks? Y/N

GGL has developed its environmental management system in line with ISO 14001:2015 standard and got the same certified by third party certification body. GGL has identified Environmental aspects related to each of the business activities / processes and assessed Environmental Impacts related to these aspects.

GGL has established **Environmental Aspect-Impact register** comprising of environmental risks arising from its construction, operations & maintenance activities and impacts covered in this register are mentioned below:

- a) Air pollution

- b) Water pollution
- c) Noise pollution
- d) Land contamination
- e) Health effects
- f) Others

This environmental aspect impact register is being reviewed at regular intervals.

- 4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?**

GGL has not undertaken any projects related to Clean Development Mechanism.

- 5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.**

GGL takes every effort possible to reduce the impact of its operations on the environment. Some of our key initiatives taken in this regard are:

- a) With a motive to contribute to energy conservation and make a move towards Digital India initiative, GGL has initiated concept of Paperless office and is continuously working in this direction by introducing online platform for formats under various policies and approvals
- b) Utilization of energy efficient lighting

- 6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?**

Yes. Environment monitoring activities are carried out at all relevant installations by SPCB approved agencies and compliance to permissible limits given by SPCB are closely monitored and ensured. All the emissions and waste generated by GGL are within the permissible limits of CPCB/SPCB. The compliance reports of the same are regularly submitted to SPCB.

- 7. Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.**

There are no pending show cause or legal notices as on 31st March 2020, the end of the financial year 2019-20.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)**

CII being a national body, from time to time takes up various initiatives of public good. GGL supports such initiatives.

Principle 8: Businesses should support inclusive growth and equitable development

- 1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.**

GGL has undertaken many initiatives in the field of community development, especially along the lines of skill up-gradation. While keeping the activities aligned to the priorities identified by the Government, the relevance of the activities to the business is also considered.

Indigenous people around the areas of our operations are trained and taken on as contractors which not only helps the Company in achieving lower attrition rates of workers but also provides them a means of livelihood.

- 2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?**

Based on the type of program and the feasibility of its execution, implementation is carried out in multiple forms like engaging with NGOs, hiring external agencies, or making use of in-house capabilities as well.

- 3. Have you done any impact assessment of your initiative?**

Prior to beginning any activity, the relevance and the need for it is assessed by one or more employees who visits the location and gauges the need of the community. In this manner, the Company can select the best programs for execution which would be relevant and effective.

- 4. What is your company's direct contribution to community development projects Amount in INR and the details of the projects undertaken.**

GGL has incurred a total expenditure of INR 11.95 Crores for its CSR activities during FY 2019 – 2020. Details of these activities are mentioned below:

1. Contribution in providing natural gas to Crematoriums across operating locations - Rs 1.14 Crores
2. Contribution to Mobile Health Screening Van running in Narmada District supporting the monthly operational expenses incurred– Rs. 2.39 lakhs

3. Contribution to Gujarat Power Energy Research Foundation (GPERF) to achieve its objectives of imparting / promotion and development of education, scientific research etc. through GPERI – Rs. 25 lakhs
4. Contribution to Smart Classroom Project by upgrading 6 classes of Smt. Sarojini Naidu Girls High School, a municipal school at Rajkot by providing smart classroom systems – Rs. 41.23 lakhs
5. Contribution of Rs. 10 Crores to “Chief Minister Relief Fund, Government of Gujarat” with special objective in the situation of Disaster Relief for helping COVID 19 affected area’s / people covering medical aid, food supply, sanitation including preventive health care through the relief operations undertaken by Government of Gujarat.
6. Others activities – NA

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

The initiatives by GGL are based upon identification of the needs and so the Company provides free gas to the crematoriums. The Company is providing gas to Crematoriums across its operating locations. Thus the Company is supporting the community through this initiative.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

The pending complaints in all customer segments for disposal is 12,659 of overall 1,81,244 i.e. 7.0% as on 31st March 2020 as per the requirement of the SLA under the Quality of Services obligations of the Petroleum and Natural Gas Regulatory Board.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks(additional information)

GGL as a service provider holds a special responsibility inherently on providing proper and correct information of the services to its customers from various sectors including Industries, Domestic, Commercial and Transport.

In regards to this, GGL always discloses the details of its services to its customer through documents such as “Registration forms” for domestic customers, and “Gas Sale Agreement (GSC)” for Industrial and commercial customers before providing the services. The basic concept behind these documents is to provide all the details of services by GGL to its customers and brief content of the same is provided below;
